## WIDE RANGE OF MAGNETIC SEPARATORS AVAILABLE FROM MAGNATTACK™ GLOBAL

MAGNATTACK™ GLOBAL manufactures many different types of magnets and magnetic separation solutions for sensitive food industry applications. Some of these include pneumatic conveying line magnets, Rare Earth RE80 magnetic separation systems, high energy magnetic separation systems for tramp iron extraction, vacuum line magnets, pneumatic Blowline magnets, grate magnets, liquid line magnets, pipeline magnets, Blowline separators, inline magnets for removing stainless steel fragments, bar magnets, finger magnets, laboratory magnets, tube magnets, pressure pipeline magnets, grid magnets, magnets for extracting stone particles and magnetic stone, packing magnets, magnets for extracting work hardened Stainless Steel fragments, chute magnets, Plate Magnets, Rare Earth Magnets, High Strength Magnets, Self Cleaning magnets and Rapid-Clean magnets, Magnattack Brand magnets and Magnattack magnetic separators, indicator magnets, outlet magnets, pallean magnets, 10,000 gauss magnets, Magnets for HACCP, food safety magnets, intakes magnets, conveyor magnets, magnets for product security, finger pot magnets, test magnets, circular magnets, suspension magnets, can depalletising magnets and magnetic probes.

MAGNATTACK™ GLOBAL also manufactures magnets to suit non standard applications where magnetic separation is required in the food industry.

Magnet validations (magnet testing or magnet checking) is also offered as a service by MAGNATTACK™ GLOBAL. MAGNATTACK™ GLOBAL has also developed the new innovative self-cleaning revolution in the magnetic separation world. Not only does this product collect weak magnetic fragments it can be automatically cleaned both during production and after/before production occurs. Already being used in breweries,

sugar production, grain production, bulk products, cereals manufacture and milk powder, MAGNATTACK™ GLOBAL supplies to some of Australia's leading food manufacturing companies. This self-cleaning magnet can be supplied worldwide including the USA. For more information on the self-cleaning magnet and other magnets please visit our website to view the full range of magnetic products and services.
